MAINE GIVES TAFT GREETING

State Excited Over First Visit Tried Many Remedies but Grew Worse Railroad Yields to Eastern of a President

Eastport Spick and Span-The Crowds Gaze at the Mayflower and the Police Chief Dons His Very

Eastport, Me., July 20 .- When the presidential yacht Mayflower pointed her way up the Lubec uarrows yesterday morning, a president of the United States for the first time in history reached the northeast corner of the country.

Eastport, the home of the American sardine industry, was appropriately excited over the occasion, flags and bunting being displayed from all the low lying buildings along the water front, and the whole population was early astir getting the little town in readiness for the coming of the distinguished guest,

The streets were cleared of every vestige of rubbish and thoroughly sprinkled. Mayor Garnett, who had the honor of entertaining the president, personally superintended most of the preparations. Chief of Police Wilson donned his very best uniform.

Soon after 8 o'clock people from the surrounding villages began to arrive. Some came in farm wagons, some in automobiles. The Mayflower did not arrive until 1 o'clock and the president was not expected to go ashore until late afternoon, but Water street and the docks overlooking the harbor were toronged by 9 o'clock.

waters started from Beverly Tuesday, terday from Phliadelphia, where he was be made later in the day. The bodies apparently were those of a firetuan about 35 and a deckhand or longshoreman about 28. They were sent to the morgue.

The was arranged before United figures show that 2,335,983 passengers ident has arranged to see him.

States Commissioner Senior and held to await the action of the federal grand passengers were carried for one injured.

Mr. Emery will stop in New that the morgue.

HANDS CRACKED

-Impossible to Do Housework -Cured by Cuticura Scap and Ointment.

"About six years ago my hands began to crack and peet. I tried many remedies, but they grew worse all the time. At last they became so sore that it was impossible for me to do my housework. If I put my hands in water I was in agony; if I tried to cook, the heat caused intense work. If I put my hands in water I was in agony; if I tried to cook, the heat caused intense of this suffering. I got my first relief when I tried Cuticura Soap and Cuticura Continent. After using them for a week I found to my great delight that my hands were beginning to feel much better, the deep cracks began to heal up and stopruncing, and in a little while my hands were cured by using only one cake of Cuticura Soap and one box of Cuticura Continent. I am very thankful to say that I havo had no return of the skin disease since. I shall be glad if you will publish this so that others may know of Cuticura. Mrs. Minnis Drew, 23 Danforth St., Jamsica Plain, Mass., April 20, 1910."
